

### **Asbestos and Lead Based Paint Consultant**

ENERCON's Sacramento, CA office has an opening for an Asbestos and Lead Based Paint Consultant to serve client environmental needs by evaluating, planning, organizing, and performing consulting services as they relate to suspect building and other regulated materials.

#### **Job Responsibilities/Duties:**

- Direct/coordinate Asbestos Inspections and daily work of Inspectors & Air Monitoring Technicians
- Direct/coordinate Lead Based Paint (LBP) Inspections, Risk Assessments, Clearances and daily work of LBP Inspectors
- Perform Asbestos and LBP Inspections
- Prepare Asbestos Survey/Inspection Reports
- Prepare LBP Inspection, Risk Assessment, & Clearance Reports
- Prepare Project Designs for Asbestos Abatement
- Develop Abatement Bid Plans & Specifications and solicit Subcontractor Bids
- Interface with Clients and develop cost estimates for Asbestos and LBP Services

#### **Job Requirements:**

- Bachelor's or Master's Degree
- 5–8 years experience performing asbestos inspections and preparing asbestos abatement project designs/abatement specifications
- Experience performing LBP inspections/risk assessments/clearances
- Working knowledge and familiarity with building mechanical systems
- Certified Asbestos Consultant in California (if not, must have State or EPA-accredited training acceptable for obtaining licensing in CA)
- Licensed Lead Based Paint Project Monitor
- Experience with other hazardous and universal regulated waste
- 40 hour HAZWOPER Training, a plus
- NIOSH 582E, a plus
- Safe driving record required with ability to travel approximately 50% to and from project sites. Some travel to non-local areas within the state.
