

Senior Environmental Scientist / Planner – CEQA & NEPA

ENERCON's Sacramento, CA office has an opening for a Senior Environmental Scientist/Planner to serve client environmental needs by evaluating, planning, organizing, and performing consulting services. Position will focus on CEQA and NEPA studies, wetland reviews, archeological reviews, and threatened & endangered species reviews. Position also provides the opportunity to assist in growing the Sacramento office and will be responsible for technical aspects and business development.

Duties:

- Manage projects maintaining schedule, budget, and quality of work.
- Perform & oversee wetland reviews, archeological reviews, and threatened & endangered species reviews. Perform field work and sampling. Approximately 25% field work and 75% office work is typical for the position.
- Achieve client objectives by obtaining information, evaluating concerns and needs, and presenting recommendations both verbally and in written reports.
- Write and review all or portions of project technical and summary reports.
- Develop business and client relationships, assisting with hiring and managing staff as the department grows, and growing the CEQA & NEPA product lines.

Skills/Qualifications:

- Bachelors' degree in Environmental Science, Natural Resources, or related field.
- Minimum of 10 years of experience which must include experience preparing environmental studies under CEQA/NEPA.
- Working relationship with California Department of Fish and Game, U.S. Army Corps of Engineers, U.S. Fish and Wildlife Department, Regional Water Quality Control Boards.
- Must have experience working with state, local, and federal agencies to obtain permits, including familiarity with permitting requirements under the CWA, ESA, and NHPA.
- Demonstrated ability to manage projects and develop business including experience developing proposals.
- Strong technical writing skills and attention to detail.
- Good verbal communication skills with ability to maintain client relationships.
- Problem solving and general scientific evaluation skills.
- Computer skills including experience with MS Office Word/Excel.
- 40-hour OSHA HAZWOPER training preferred.
- Safe Driving Record.
